Tarek Ahmed

CSE Student | Exploring Web Development with React, Next.js and Node.js | Video Editor | Research Enthusiast
Sylhet, Bangladesh

Summary

CSE undergrad at Metropolitan University who enjoys building things people can actually see and use, whether that's a website or a video edit.Web development is where I am currently curious and exploring. There's something satisfying about turning a rough idea into something that actually works in the browser. I enjoy figuring out how the frontend and backend fit together, and React, Next.js, and Node.js are the technologies I'm most interested in exploring and building with.Video editing was another big part of my journey. I worked as a Junior Video Editor at Twine, handling client projects with tight deadlines, which taught me to pay attention to the little details and care about how the final product looks and feels. I bring that same mindset into my frontend work.Research is another area I'm passionate about. I enjoy digging into problems, exploring new ideas, collaborating with others, and presenting what we discover. I've had the opportunity to co-author and present research papers, which has made me even more interested in exploring ideas beyond the classroom.My Tech Stack:- Languages: C, C++, Python, JavaScript- Web Development: HTML, CSS, Tailwind CSS, React, Next.js.- Tools: Git, GitHub, VS Code- Video Editing: Premiere Pro, DaVinci Resolve, After EffectsOpen to internships, web projects, and research collaborations. Always happy to connect with fellow developers, researchers, creatives, or anyone building something interesting!

Experience

Twine
Junior Video Editor
February 2024 - May 2025 (1 year 4 months)

1)Mastered various editing software programs, increasing versatility and adaptability in diverse projects.

2)Effectively managed multiple projects simultaneously without compromising quality or missing deadlines.
3)Increased client satisfaction by delivering high-quality, professional videos tailored to their needs.
4)Assisted senior editors in refining complex projects, contributing to overall team success.

Education

Metropolitan University Bangladesh

Bachelor of Science - BS, Computer Science and Engineering · (August 2023)

SCHOLARSHOME, Sylhet

HSC, Science · (February 2023)

SCHOLARSHOME, Sylhet

SSC, Student · (2020)
